AL NASEEM | Facade Options

Throughout the Al Naseem Community, there are two facade styles to choose from for all 6, 5 and 4 bedroom villas.

South Californian Style

The elevation treatment of this villa evokes a Californian style, featuring a sloped roof, and the integration of natural materials, such as wood, to the underside of the roof, the shading screens, pergolas and door finishes. Large windows and terraces connect the interior with the outdoors, providing an inviting and open atmosphere and allowing for a variety of external uses. Pergolas provide shade to outdoor living areas and dining experiences throughout the day. The design emphasizes cornish details and flat surfaces to create a sense of horizontality, contributing to the open and airy feel of the spaces.

Modern Contemporary Style

This contemporary style fuses modernity and sociability. Inspired by luxurious modernist architecture, the elevation treatment features a blend of modern and minimalist design elements. It showcases a combination of dark grey metal cornices and white stucco walls. Full-glazed windows are ornamented with timber panels that add an earthy tone. Together with its vast terraces, they connect the interior with the outdoors, creating an inviting and open atmosphere and allowing for a variety of external uses ranging from hosting a dining experience to a yoga session. Pergolas become a key feature of the design providing shade to the bedroom terraces and communal dining experiences in the garden throughout the day.
